The

Grrrr...
It's still in the testing stages, so I didn't want anyone to find out about it.

The

they were
manufacturing
something like
that...?

Apparently
that's a new
III model,
from the
South American
Mogelath
Corp. It seems
they sus-
pended test-
ing opera-
tions to come
assist us.

If we can at least have her regain consciousness...

Even if we can't save her,

She's just moving because of the plant's defensive instinct!

— Whoa!!

DOCTOR, THIS WAY!

IT'S DANGEROUS HERE!

It's to get this situation under control!

?!

— You're with the US military, right?

I want to ask for your cooperation!

WHAT
SHOULD
I DO?!

HEY?!

MOVE
OUT!!

HEY
THERE! AND
HEY! IS
SOME TIME!
WE'LL
FOLLOW
YOU AND
GIVE YOU
HELP!!

IS SHE
SOMEONE
PRECIOUS
TO YOU
OR SOME-
THING?

...
MAKING
IT
SEEM
SO
SIMPLE
WHO
THE
HELL
IS
THIS?

And now he's back to his cocky self all of a sudden!

What's up with him...? He looked like he was mourning a death a second ago.

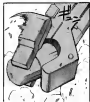

Be careful not to hurt her.

I'll kill you if you do.

Shut up. It doesn't matter who she is, does it?

You've met her once before, too.

Colonel, are you not going to use your hee-arms?

Do you can still move after taking your head. Even if you don't have a nu-clas or a source of pain, you're still a sur-prising head-land.

And it would be a pain if it took counter-measures.

Don't be stupid. The best way to use a new weapon is to use restraint.

With "brute force".

That's why, you get pro-five-

And
crush
it!

Forget about drawing her out, it looks like she's coming after me on her own.

Just be quiet and do as I say!

This isn't good at all!

... Good, nothing!

It goes according to the Captain's orders.

I got a grasp of the building's layout and your position.

I never knew a Human taken over in an armored state could be this much trouble.

Are you sure she's following you? I can't figure out the opponent's position.

Don't worry about it!

I DON'T KNOW WHAT'S GOING ON, BUT I TRUST YOU!

Keep heading in that way!

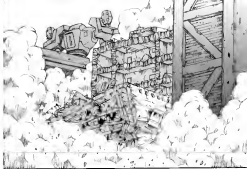

ARE YOU SURE THIS PLACE IS OKAY? IT'S A DEAD END!

W...
was that
okay...?

I
had
to
do
it.

Vegan

Nice
job

I can
only bet on
the possibility
of her con-
sciousness
returning to her
after blocking
out the
light.

She
can't be
reached
in that
state.

So we
closed
her off.

Then,
I will
regain
my
body-

And
return
earth to
human
hands--

I will
destroy
those
plants
without
fail,

Yes. So you

Are you referring to the group that attacked the Magallan Corp?

Even in those CIA reports, I don't see anything that corresponds to those military group's movements!

It's not fatal I don't see it anywhere.

There is no information that doesn't reach my office

There must not be.

Every army and every terrorist organization on earth... even more numerous.

Oh... and that is?

At this point, I have no choice but to reach an unpleasant conclusion.

So what's the meaning of this?

Within the field of information and tactics, our country is still on top.

HEY LOOK,

Ahahaha!!

...don't you give an example that easier for someone like me to understand?

Take perfect pitch for example.

Even if we call it an ability, it's not anything special really.

Those old are...

It's often said that there are those with the ability, and those without... But that's not the case.

If you can generally make the distinction between the rise and fall of sound, in a broad sense, that's also perfect pitch. The point is that it's a difference in degree.

Neither does it mean that one's been chosen by the plants.

It's doesn't necessarily mean that man's undergone some special evolution.

Occasionally, the formation of the brain's neurons are better suited to communicate with plants rather than other humans.

Senpai

TCH...

It just means
you're like

A black and white manga panel showing a close-up of a young man with dark hair, wearing a collared shirt and a tie. He is looking slightly to the left with a serious expression. A speech bubble is to his left.

Compared

my level of com-

I told you
there's a

It's likely
